PRESS RELEASE:

FOR IMMEDIATE RELEASE

## **Innov8tive Solutions Opens Integration & Warehouse Facility in Eatontown, NJ on Industrial Way**

Eatontown, NJ – Innovative Solutions announced today that it has opened a facility on Industrial Way in Eatontown New Jersey. The facility will be utilized for the integration of networked communications systems consisting of satellite and terrestrial RF, and potentially electro-optical technologies, and a full range of procurement services for the company’s current and future customers.

The company’s warehouse and procurement services will include: Materials Procurement, Pack Assembly, Customizable packaging and labeling, Warehousing, Electronic inventory management including RFID (UID), Real-Time Online tracking and E-mail notification, and a Government Approved Purchasing System that will ensure best value consistently for our customers.

“Material Purchases and Inventory Management on large complex Government projects can be a daunting task that normally takes away from what the customers are actually trying to accomplish. Our goal is to provide an efficient warehousing and purchasing system that enables our customers to focus on their primary mission. We will ensure that the warfighter’s are getting the materials they need when they need it,” said Innov8tive Solutions CEO Matthew Weltman. “With the addition of this facility and its state of the art capabilities, our customers will always know how, when, and where their products are at all times.”

### **About Innov8tive Solutions**

Innov8tive Solutions is a small New Jersey based company that provides innovative Software and Hardware Products, Engineering Services, and Integrated Logistics to a wide variety of customers in Industry, and Local, State, and Federal Government.
